PROFESSIONAL SUMMARY

Business Analyst with hands-on experience in requirement gathering, stakeholder management, process improvement, and data analysis within a fast-paced SaaS product environment. Skilled at bridging the gap between business needs and technical teams - translating complex requirements into actionable user stories, identifying process gaps, and delivering data-driven insights. Proficient in SQL, Excel, Power BI, and Tableau with a strong foundation in both product thinking and business operations.

CORE COMPETENCIES

- **BA Skills:** Requirement Gathering, Business Process Mapping, Gap Analysis, User Story Writing, Stakeholder Collaboration & Management
- **Product:** Product Lifecycle, POC & UAT Support, Workflow Analysis, Usability Assessment, Jira
- **Analytics:** SQL, Microsoft Excel, Power BI, Tableau, KPI Tracking, Data Validation, Root Cause Analysis
- **Soft Skills:** Cross-functional Collaboration, Process Improvement, B2B Communication with C-level Executives, CRM & Pipeline Management, Global Market Research, SaaS Product Demonstration

WORK EXPERIENCE

Business Analyst & Client Operations | FireFlink, Bengaluru, India

May 2025 - Present

SaaS-based test automation platform - cross-functional role spanning business analysis, product operations, and client delivery.

- Gathered and documented business requirements from clients across APAC and EMEA, translating them into structured user stories with acceptance criteria in Jira for engineering teams.
- Conducted end-to-end workflow analysis during client POCs, identifying usability gaps, process bottlenecks, and automation opportunities - directly informing product improvement decisions.
- Coordinated on boarding of a pharmaceutical e-commerce client, mapping their end-to-end application workflows and defining automation scenarios in collaboration with engineering teams.
- Performed root cause analysis on client-reported issues, identifying underlying process and product gaps and driving resolution through cross-functional coordination.
- Monitored client engagement and product adoption using FireFlink's internal analytics dashboard - identified usage patterns, diagnosed underperformance blockers, and collaborated with internal teams to drive resolution, improving operational efficiency by ~15%.
- Managed channel partner relationships, coordinating client acquisition, on boarding, and ongoing support across multiple accounts - contributing to a ~20% improvement in deal conversion.

PROJECTS

Retail Sales Data Analysis | SQL · Excel

- Cleaned and analysed structured retail sales data using SQL - performed relational joins, filtered item-level records, and validated data integrity across multiple tables to build analysis-ready datasets.
- Identified data anomalies and documented root causes, applying data validation principles to ensure accuracy of downstream business reporting.

Business Performance Dashboard | Tableau · KPI Design

- Developed an interactive Tableau dashboard tracking sales KPIs, category performance, and trend analysis - enabling stakeholders to monitor business health and make data-driven decisions.

International Market Expansion - HelloFresh | Strategic Analysis · Vendor Assessment

- Analysed market entry strategy for three countries using PESTEL, Porter's Five Forces, and SWOT - recommended a joint venture strategy supported by financial and competitive analysis. Ranked first in cohort (Grade: 83%).
